## Annex 3. Agreement to Introduce a Greenhouse Gas Emission Reporting System

With regard to the goods/services you supply and to enable Abengoa T&I to create an inventory of all the greenhouse gas emissions corresponding to its aforementioned products / services, we ask that you sign this agreement subject to the terms and conditions set out below:

1. Supplier undertakes to introduce a Greenhouse Gas Reporting System (GGRS).
2. The GGRS in this agreement must enable supplier to provide Abengoa T&I with the following data on greenhouse gas emissions:
  - Direct emissions.
  - Indirect emissions associated with the consumption of electrical or heat energy.
  - Indirect emissions associated with the goods/services acquired by the supplier for the purposes of producing the goods/services supplied.

Furthermore, supplier will provide the parameters used to calculate the emissions according to "Greenhouse Gas Emissions Data Request Form".

3. Furthermore, supplier will commit to providing the data gathered in "Greenhouse Gas Emissions Data Request Form" except for the emissions factors (EF).

You will receive the "Greenhouse Gas Emissions Data Request Form" from the Abengoa T&I environmental department when your first purchase order is created.
